

# EXIT SIGNS & EMERGENCY LIGHTING

LED Running Man Exit Signs and Emergency Lighting are a critical component of a building's safety infrastructure. They are designed to ensure that occupants can quickly and safely find their way out of the building in any situation that requires evacuation.

Our collection of signs and lighting are the perfect choice for commercial/industrial projects and play a vital role in lighting the way to egress, guiding people towards safety.

## LED RUNNING MAN EXIT SIGNS

The Running Man Exit Sign was officially adopted by the ISO in 1985. Canada's National Building Code (NBC) has required the use of these signs since 2010. We offer Running Man Exit Signs in three styles: Thermoplastic, Steel, and Edge-Lit.

R61001 | RENO-RMS-U (Thermoplastic)  
R61004 | RENO-SRMS-U (Steel)  
R61003 | RENO-REL-U (Edge-Lit)

- Available in Thermoplastic, Steel, or Edge-Lit
- Universal input (120-347V)
- Two hours of battery time
- Flag, wall, or ceiling mount
- Includes full set of pictograms (None, Left, and Right indicator)

## LED RUNNING MAN COMBO UNITS

Combination Power/Running Man units help communicate the location of an exit and provide battery-powered light in the event of a power loss. Our collection of Combo Units are available in Steel or Thermoplastic.

R61002 | RENO-RMC-U (Thermoplastic)  
R61005 | RENO-SRMC-U (Steel)

- Available in Thermoplastic or Steel
- Universal Input (120-347V)
- Nickel Cadmium battery with two hours of battery time
- Integrated with two LED heads
- Designed with external LED status indicator and test switch
- Flag, wall, or ceiling mount
- Includes full set of pictograms (None, Left, and Right indicator)

## LED EMERGENCY BATTERY UNITS & REMOTE HEADS

Emergency Battery backup units with LED heads and Remote heads provide illumination during power outages or emergency situations to ensure safety and visibility for occupants to navigate their way.

R61201/R61202 | 36W/72W Battery Unit  
R61101/R61102 | 2W/7W Single Head  
R61103/R61105 | 2x2W/2x5W Double Head  
R61203 | 2x2W Dual Head/Twin Spot

- Rugged metal frame, self-powered Battery Backup Units
- Battery Backup Units with 2x2W or 2x5W LED heads
- Single LED Remote Heads available in 2W or 7W
- Double LED Remote Heads available in 2x2W or 2x7W
- Dual Head/Twin Spot available in 2x2W LED heads
